Report of Independent Registered Public Accounting Firm

To the Partners and Management of Cantor Fitzgerald & Co.

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Cantor Fitzgerald & Co (the “Partnership”) as of December 31, 2020 and the related notes (the “financial statement”). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Partnership at December 31, 2020, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

This financial statement is the responsibility of the Partnership’s management. Our responsibility is to express an opinion on the Partnership’s financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Partnership in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We have served as the Partnership’s auditor since 2008.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies

Description of Business – Cantor Fitzgerald & Co. (the “Partnership”), which is organized under the laws of the State of New York, is a registered broker-dealer with the Securities and Exchange Commission (“SEC”), and a futures commission merchant (“FCM”) registered with the Commodity Futures Trading Commission (“CFTC”). The Partnership’s primary activities include providing investment banking and advisory services and trading in equity, exchange-traded funds, corporate, government, mortgage backed and municipal securities, and financial futures. In addition, the Partnership is in the business of clearing for correspondent customers, and is a primary dealer in the United States of America (“U.S.”) government securities. The Partnership is owned by Cantor Fitzgerald Securities (“CFS”) (94%), the managing general partner, a majority owned subsidiary of Cantor Fitzgerald, L.P. (“CFLP” and together with its subsidiaries, “Cantor”) as well as CFLP CF&Co. I Holdings, L.P. (1%), a limited partner, and wholly owned subsidiary of CFLP and CFGM CF&Co Holdings, LLC, LLC (5%), which is a subsidiary of CF Group Management, Inc. (“CFGM”), the managing general partner of CFLP. In exchange for an indemnity from CFS, CFGM by a separate agreement with CFS, has assigned its entire 5% indirect interest in the Partnership to CFS.

Basis of Presentation – The statement of financial condition is presented in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates – Management makes estimates and assumptions that affect the reported amounts of the assets and liabilities, and the disclosure of contingent assets and liabilities. Management believes that the estimates utilized in preparing the statement of financial condition are reasonable. Estimates, by their nature, are based on judgment and available information. As such, actual results could differ materially from the estimates included in the statement of financial condition.

Revenue Recognition – The Partnership derives its revenues primarily through fees from investment banking and advisory services, principal transactions from brokerage services, commissions, and interest.

Investment Banking and Advisory Services – Investment banking and advisory services include underwriting public and private offerings of equity/equity-linked and debt securities and financial advisory services in connection with mergers and acquisitions, restructurings and other transactions. Generally, the Partnership’s underwriting transactions represent a single performance obligation which is the sale of the customer’s securities. Revenue from these activities is recognized at a point in time on the trade-date because the Partnership has a present right to payment for the service performed and the customer has a right to the net cash proceeds.

The Partnership’s financial advisory services include various types of transactions and, as a result, revenue recognition is dependent on the type of promised service. Payments received upfront are recognized periodically over the duration of the service or upon the achievement of a milestone. Financial advisory services for mergers and acquisitions often contain success fees that are due upon the completion of a sale or transaction. In these cases, the single performance obligation is the successful completion of the sale or transaction. As a result, revenue is recognized at a point in time when the sale or transaction is completed. In instances where the fees are received upfront, the fee is deferred within the Partnership’s statement of financial condition until the satisfaction of the performance obligation. In other cases, the promised service may be satisfied over time. For example, where the service is to provide financial advice on identifying potential transactions, the performance obligation is satisfied over time using a time elapsed methodology as the customer is simultaneously receiving and consuming the promised service. Most of the fees received for financial advisory services are considered variable consideration as the fees are contingent upon a future event (for example, a completion of a transaction) and are excluded from the transaction price until the uncertainty associated with the variable consideration is subsequently resolved, which is expected to occur upon achievement of the specified milestone.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies (continued)

Principal Transactions, net – Principal transactions revenue is derived primarily from matched principal transactions, whereby the Partnership simultaneously agrees to buy securities from one customer and sell them to another customer. Certain trading businesses are allowed to enter into unmatched principal transactions to facilitate a customer’s execution needs for transactions initiated by such customers. Revenue earned from principal transactions represent the spread between the buy and sell price of the security, commodity or derivative. Principal transactions revenue and related expenses are recognized on a trade-date basis. Positions held as part of principal transactions are marked to market on a daily basis.

Commissions – Commissions revenue is derived from securities and commodities, whereby the Partnership connects buyers and sellers in the over-the-counter (“OTC”) and exchange markets and assists in the negotiation of the price and other material terms. These transactions result from the provision of service related to executing, settling and clearing transactions for clients. Trade execution and clearing services, when provided together, represent a single performance obligation as the services are not separately identifiable in the context of the contract. Commissions revenue is recognized at a point in time on the trade-date, when the customer obtains control of the asset and can direct the use of, and obtain substantially all of the remaining benefits from the asset. The Partnership records a receivable between the trade-date and settlement date, when payment is received.

Interest Income and Expense – The Partnership recognizes contractual interest on Financial instruments owned and Financial instruments sold, not yet purchased, on an accrual basis as a component of the Interest income and expense, respectively

The Partnership accounts for short-term and long-term borrowings on an accrual basis with related interest recorded as Interest expense. In addition, the Partnership recognizes interest income related to Securities borrowed and Securities purchased under agreements to resell and interest expense related to the Securities loaned and Securities sold under agreements to repurchase on an accrual basis as a component of the Interest income and expense, respectively.

Other Revenue – Other revenue consist primarily of prime brokerage services, which includes clearing and settling trades as well as providing custodial services. Fees for these services are recognized at a point in time when usage occurs.

Cash and Cash Equivalents – The Partnership considers all highly liquid investments with maturity dates of 90 days or less at the date of acquisition that are not segregated under regulatory requirements to be cash equivalents.

Cash and Securities Segregated Under Federal and Other Regulations – Cash and securities segregated under federal and other regulations are segregated for the protection of customers and for the proprietary accounts of brokers or dealers under the Commodity Exchange Act and Securities Exchange Act of 1934.

Financial Instruments Owned and Financial Instruments Sold, Not Yet Purchased – Financial instruments owned and Financial instruments sold, not yet purchased are recorded at fair value based on current listed market prices or broker quotes. Financial instruments owned by customers, including those that collateralize margin or other similar transactions, are not reflected in the Partnership’s statement of financial condition. Financial instrument transactions of the Partnership and the related principal transactions revenue are recorded on a trade-date basis.

Fair Value – U.S. GAAP defines fair value as the price received to transfer an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and requires certain disclosures about such fair value measurements.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies (continued)

The guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 measurements – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 measurements – Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 measurements – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

In determining fair value, the Partnership separates Financial instruments owned and Financial instruments sold, not yet purchased into two categories: cash instruments and derivative contracts.

- Cash Instruments – Cash instruments are generally classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. The types of instruments valued based on quoted market prices in active markets include most U.S. government securities and equities. Such instruments are generally classified within Level 1 of the fair value hierarchy. The Partnership does not adjust the quoted price for such instruments, even in situations where the Partnership holds a large position and a sale could reasonably impact the quoted price. The types of instruments valued based on quoted prices in markets that are not active, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency include certain U.S. government securities, agency securities, corporate bonds and municipal obligations. Such instruments are generally classified within Level 2 of the fair value hierarchy.
- Derivative Contracts – Derivative contracts can be exchange-traded or OTC. Exchange-traded derivatives typically fall within Level 1 or Level 2 of the fair value hierarchy depending on whether they are deemed to be actively traded or not. The Partnership generally values exchange-traded derivatives using the closing price from the exchange. OTC derivatives typically fall within Level 2 of the fair value hierarchy. The Partnership generally values OTC derivatives using market transactions and other market evidence whenever possible, including market-based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. For OTC derivatives that trade in liquid markets, such as generic options, certain futures and To Be Announced agency mortgage backed securities (“TBAs”), model inputs can generally be verified and model selection does not involve significant management judgment. Such instruments are typically classified within Level 2 of the fair value hierarchy.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies (continued)

- Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, credit curves, measures of volatility, prepayment rates, loss severity rates and correlations of such inputs. Inputs to the valuations of level 2 derivatives can be verified to market transactions, broker or dealer quotations or other alternative pricing sources with reasonable levels of price transparency. Consideration is given to the nature of the quotations (e.g., indicative or firm) and the relationship of recent market activity to the prices provided from alternative pricing sources.

Collateralized Agreements and Financings – Collateralized agreements are securities purchased under agreements to resell (“Reverse Repurchase agreements”) and securities borrowed. Collateralized financings are securities sold under the agreements to repurchase (“Repurchase agreements”) and securities loaned. The Partnership enters into these transactions to obtain financing, satisfy cash and securities segregated deposit requirements, and cover short sales.

- Reverse Repurchase and Repurchase agreements – Reverse Repurchase and Repurchase agreements are recorded at the contractual amount for which the securities will be repurchased or resold, including accrued interest. The Partnership nets certain Reverse Repurchase agreements and Repurchase agreements when a legal right of offset exists under master netting arrangements, which are enforceable by law. It is the policy of the Partnership to obtain possession of collateral with a market value equal to, or in excess of, the principal amount loaned under Reverse Repurchase agreements. Collateral is valued daily and the Partnership may require counterparties to deposit additional collateral or return collateral pledged when appropriate.
- Securities borrowed and Securities loaned transactions – Securities borrowed and Securities loaned are recorded at the amount of cash collateral advanced or received. The Partnership nets certain securities borrowed and securities loaned transactions when a legal right of offset exists under master netting arrangements, which are enforceable by law. Securities borrowed transactions require the Partnership to deposit cash with the lender. The Partnership monitors the market value of securities borrowed and loaned on a daily basis and obtains or refunds additional collateral as necessary to ensure such transactions are adequately collateralized.

Receivables from and Payables to Broker-Dealers, Clearing Organizations, Customers and Related Broker-Dealers – Receivables from and Payables to broker-dealers, clearing organizations, customers and related broker-dealers primarily represent principal transactions which have not yet settled. Also included in Receivables from and Payables to broker-dealers, clearing organizations, customers and related broker-dealers is cash deposited with various clearing organizations to conduct ongoing clearance activities, and commissions receivable. Payables to customers also include amounts due on customer margin deposits and free credit balances.

Accrued Commissions Receivable, net – Accrued commissions receivable represent amounts due from brokers, dealers, banks and other financial and non-financial institutions for the execution of securities and other derivative brokerage transactions.

Fixed Assets, net – Fixed assets are recorded at historical cost and depreciated over their estimated economic useful lives, generally three to five years, using the straight-line method. Leasehold improvements are amortized over their estimated economic useful lives or the remaining lease term, whichever is shorter. In accordance with U.S. GAAP guidance, the Partnership capitalizes qualifying computer software costs incurred during the application development stage and amortizes them over an estimated useful life of three years on a straight-line basis.

Leases – The Partnership enters into leasing arrangements in the ordinary course of business as a lessee of office space, data centers and office equipment.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies (continued)

The Partnership determines whether an arrangement is a lease at inception. Right of use (“ROU”) lease assets represent the Partnership’s right to use an underlying asset for the lease term, and lease liabilities represent the Partnership’s obligation to make lease payments arising from the lease. Other than for leases with an initial term of twelve months or less, operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most leases do not provide an implicit rate, the Partnership uses an incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Partnership will exercise that option.

Income Taxes – Income taxes are accounted for under U.S. GAAP Accounting Standard Codification (“ASC”) Topic 740, *Income Taxes*, using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the statement of financial condition carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. To the extent that it is more likely than not that deferred tax assets will not be recognized, a valuation allowance would be established to offset their benefit.

ASC Topic 740, *Income Taxes*, clarifies the accounting for income taxes by prescribing a “more likely than not” recognition threshold that a tax position is required to meet before being recognized in the statement of financial condition. In addition, the guidance clarifies the measurement of uncertain tax positions, classification of interest and penalties, and requires additional disclosures on tax reserves.

The Partnership is taxed as a U.S. partnership. Under applicable federal and state laws, the taxable income or loss of a general partnership is allocated to each partner based upon its ownership interest. Each partner’s tax status, in turn, determines the appropriate income tax for its allocated share of taxable income or loss. The Partnership is subject to the Unincorporated Business Tax (“UBT”) in New York City, Pass-Through Entity (“PE”) Tax in Connecticut and Texas Franchise Tax, for which it records income tax provisions.

Compensation Arrangements – CFLP provides awards to certain employees of the Partnership in the form of grant units. Grant units entitle the employees to participate in quarterly distributions of Cantor’s income and to receive certain post-termination payments. Grant units are accounted for under U.S. GAAP guidance, which requires that the Partnership record an expense for distributions and for the change in value of the post-termination liability for such awards at each reporting period.

Recently Adopted Accounting Pronouncements

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326)— *Measurement of Credit Losses on Financial Instruments*, which requires financial assets that are measured at amortized cost to be presented, net of an allowance for credit losses, at the amount expected to be collected over their estimated life. Expected credit losses for newly recognized financial assets, as well as changes to credit losses during the period, are recognized in earnings. For certain purchased financial assets with deterioration in credit quality since origination (“PCD assets”), the initial allowance for expected credit losses will be recorded as an increase to the purchase price. Expected credit losses, including losses on off-balance-sheet exposures such as lending commitments, will be measured based on historical experience, current conditions and reasonable and supportable forecasts that affect the collectability of the reported amount. Subsequent amendments issued by the FASB during 2018 and 2019 in ASU No. 2018-19, *Codification Improvements to Topic 326, Financial Instruments—Credit Losses* ASU No. 2019-04, *Codification Improvements to*

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies (continued)

Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments, ASU No. 2019-05, *Financial Instruments—Credit Losses (Topic 326): Targeted Transition Relief*, and ASU No. 2019-11, *Codification Improvements to Topic 326, Financial Instruments—Credit Losses* provided additional guidance with regards to the application of the credit losses standard. The amendments in ASUs No. 2018-19, 2019-04, 2019-05 and 2019-11 were required to be adopted concurrently with the guidance in ASU No. 2016-13. The Partnership adopted the standards on their required effective date beginning January 1, 2020 using a modified retrospective approach. The adoption of this guidance did not have a material impact on the Partnership's statement of financial condition.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. The guidance is part of the FASB's disclosure framework project, whose objective and primary focus are to improve the effectiveness of disclosures in the notes to statement of financial condition. The ASU eliminates, amends and adds certain disclosure requirements for fair value measurements. The FASB concluded that these changes improve the overall usefulness of the footnote disclosures for financial statement users and reduce cost for preparers. Certain disclosures are required to be applied prospectively and other disclosures need to be adopted retrospectively in the period of adoption. As permitted by the transition guidance in the ASU, the Partnership early adopted, eliminated and modified disclosure requirements as of September 30, 2018 and adopted the remaining disclosure requirements effective January 1, 2020. The adoption of this standard did not have a material impact on the Partnership's statement of financial condition.

In April 2019, the FASB issued ASU No. 2019-04, *Codification Improvements to Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments*. The ASU amends guidance introduced or amended by ASU No. 2016-13, *Financial Instruments—Credit Losses (Topic 326)—Measurement of Credit Losses on Financial Instruments*, ASU No. 2017-12, *Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*, and ASU No. 2016-01, *Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. The amendments to ASU No. 2016-13 clarify the scope of the credit losses standard and address guidance related to accrued interest receivable balances, recoveries, variable interest rates and prepayments, among other issues. With respect to amendments to ASU No. 2017-12, the guidance addresses partial-term fair value hedges, fair value hedge basis adjustments, and certain transition requirements, along with other issues. The clarifying guidance pertaining to ASU No. 2016-01 requires an entity to remeasure an equity security without a readily determinable fair value accounted for under the measurement alternative at fair value in accordance with guidance in ASC 820, *Fair Value Measurement*; specifies that equity securities without a readily determinable fair value denominated in nonfunctional currency must be remeasured at historical exchange rates; and provides fair value measurement disclosure guidance. The codification improvements related to credit losses were required to be adopted concurrently with ASU No. 2016-13 as of January 1, 2020. See above for the impact of adoption of the amendments stipulated in ASU No. 2019-04. The hedge accounting standard amendments became effective for the Partnership as of January 1, 2020 and may be applied either retrospectively or prospectively, with certain exceptions. The amendments related to the recognition and measurement guidance became effective for the Partnership as of January 1, 2020 and should be applied prospectively for equity securities without readily determinable fair value with the remaining amendments to be applied on a modified-retrospective transition basis by means of a cumulative-effect adjustment to the opening retained earnings balance as of the date an entity adopted all of the amendments in ASU No. 2016-01. Management adopted the hedge accounting standard amendments and recognition and measurement guidance amendments on the required effective date beginning January 1, 2020. The adoption of this guidance did not have a material impact on the Partnership's statement of financial condition. See above for the impact of adoption of the amendments related to the credit losses standard.

In March 2020, the FASB issued ASU No. 2020-03, *Codification Improvements to Financial Instruments*. This ASU makes narrow-scope amendments related to various aspects pertaining to financial instruments and related disclosures by clarifying or improving the Codification. For the most part, the guidance was effective upon issuance, and the adoption of the standard did not have a material impact on the Partnership's statement of financial condition.

Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

1. General and Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In December 2019, the FASB issued ASU No. 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*. The ASU is part of the FASB's simplification initiative; and it is expected to reduce cost and complexity related to accounting for income taxes by eliminating certain exceptions to the guidance in ASC 740, *Income Taxes* related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period, and the recognition of deferred tax liabilities for outside basis differences. The new guidance also simplifies aspects of the accounting for franchise taxes and enacted changes in tax laws or rates, and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The new standard became effective for the Partnership beginning January 1, 2021 and with certain exceptions, will be applied prospectively. Adoption of ASU 2019-12 is not expected to have a material impact on the Partnership's statement of financial condition.

In March 2020, the FASB issued ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. The guidance is designed to provide relief from the accounting analysis and impacts that may otherwise be required for modifications to agreements (e.g., loans, debt securities, derivatives, and borrowings) necessitated by reference rate reform as entities transition away from LIBOR and other interbank offered rates to alternative reference rates. This ASU also provides optional expedients to enable companies to continue to apply hedge accounting to certain hedging relationships impacted by reference rate reform. Application of the guidance is optional and only available in certain situations. The ASU is effective upon issuance and generally can be applied through December 31, 2022. In January 2021, the FASB issued ASU No. 2021-01, *Reference Rate Reform (Topic 848): Scope*. The amendments in this standard are elective and principally apply to entities that have derivative instruments that use an interest rate for margining, discounting, or contract price alignment that is modified as a result of reference rate reform (referred to as the "discounting transition"). The standard expands the scope of ASC 848, *Reference Rate Reform* and allows entities to elect optional expedients to derivative contracts impacted by the discounting transition. Similar to ASU No. 2020-04, provisions of this ASU are effective upon issuance and generally can be applied through December 31, 2022. Management is evaluating and planning for adoption of the new guidance, including forming a cross-functional LIBOR transition team to determine the Partnership's transition plan and facilitate an orderly transition to alternative reference rates, and continuing its assessment on the Partnership's statement of financial condition.

In October 2020, the FASB issued ASU No. 2020-10, *Codification Improvements*. The standard amends the Codification by moving existing disclosure requirements to (or adding appropriate references in) the relevant disclosure sections. The ASU also clarifies various provisions of the Codification by amending and adding new headings, cross-referencing, and refining or correcting terminology. The new standard became effective for the Partnership beginning January 1, 2021 and was applied using a modified retrospective method of transition. The adoption of this guidance did not have a material impact on the Partnership's statement of financial condition.

2. Fair Value Measurement

The Partnership's Financial instruments owned and Financial instruments sold, not yet purchased consisted of the following (in thousands):

	Financial instruments owned	Financial instruments sold, not yet purchased
As of December 31, 2020		
Agency mortgage backed securities	\$ 3,446,728	\$ 60,790
U.S. government agencies and other obligations	727,330	429,365
U.S. government treasuries	233,061	515,591
Corporate bonds	49,599	19,413
Equities	38,241	22,378
Swap agreements	38,046	-
Municipal bonds	25,536	16
Mortgage and other asset backed securities	11,273	-
Options	2,862	410
Futures	73	55
Total	\$ 4,572,749	\$ 1,048,018

The following tables set forth by level within the fair value hierarchy financial assets and liabilities accounted for at fair value under U.S. GAAP guidance at December 31, 2020 (in thousands):

Description	Assets at fair value at December 31, 2020				
	Quoted prices in active markets for identical assets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Netting and collateral	Total
Financial instruments owned:

Derivative Contracts – The Partnership does not designate any derivative contracts as hedges for accounting purposes. U.S. GAAP requires that an entity recognize all derivative contracts as either assets or liabilities in the statement of financial condition and measure those instruments at fair value. The fair value of all derivative contracts is recorded on a net-by-counterparty basis where a legal right to offset exists under an enforceable netting agreement.

The derivative contracts are recorded as part of Financial instruments owned and Financial instruments sold, not yet purchased in the Partnership's statement of financial condition as follows (in thousands):

Description	As of December 31, 2020		
	Notional Amount ⁽²⁾	Assets	Liabilities
Options	\$ 17,420,705	\$ 2,862	\$ 410
TBA's ⁽¹⁾	5,075,432	8,946	42,253
Swap agreements	2,996,600	38,046	–
Futures	1,945,777	73	55

- (1) The fair value of TBA's is included in Agency mortgage backed securities in the Financial instruments owned and Financial instruments sold, not yet purchased tables above and the fair value hierarchy tables above.
- (2) Notional amounts, which represent the sum of gross long and short derivative contracts, provide an indication of the volume of the firm's derivative activity and do not represent anticipated losses.

¹ The fair value of TBAs is included in Agency mortgage backed securities in the Financial instruments owned and Financial instruments sold, not yet purchased tables and fair value hierarchy tables above.

² There were no additional balances in gross amounts not offset as of December 31, 2020.

3. Receivables from and Payables to Broker-Dealers, Clearing Organizations, Customers and Related Broker-Dealers

Receivables from and Payables to broker-dealers and clearing organizations primarily represent amounts due on undelivered mortgage backed securities, government securities, equities and corporate bonds, cash on deposit with clearing organizations and receivables from clearing brokers.

At December 31, 2020, Receivables from and Payables to broker-dealers, clearing organizations, customers and related broker-dealers included the following (in thousands):

As of December 31, 2020	Receivables	Payables
Clearing brokers and clearing organizations	\$ 90,499	\$ 35,315
Contract values of fails to deliver/receive	14,968	4,934

3. Receivables from and Payables to Broker–Dealers, Clearing Organizations, Customers and Related Broker–Dealers (continued)

As of December 31, 2020, the Partnership had payables to affiliated broker-dealers of \$1.8 million (see Note 7 – Related Party Transactions, for additional information related to these payables).

Receivables from and Payables to customers primarily represent open fails to deliver and fails to receive transactions, respectively. Substantially all open fails to deliver and fails to receive transactions as of December 31, 2020 have subsequently settled at the contracted amounts.

Receivables from and Payables to customers also include amounts due on cash transactions.

4. Securities Financing Transactions

The following tables show the gross and net contract amounts of collateralized agreements and collateralized financings at December 31, 2020 (in thousands):

	As of December 31, 2020					
	Assets			Liabilities		
	Securities purchased under agreements to resell	Securities borrowed	Total collateralized agreements	Securities sold under agreements to repurchase	Securities loaned	Total collateralized financings
Gross amount	\$ 16,084,195	\$ 2,558,383	\$ 18,642,578	\$ 20,141,519	\$ 1,447,610	\$ 21,589,129
Less: gross amount offsets	7,296,589	651,500	7,948,089	7,948,089	–	7,948,089
Net amount presented in the Partnership's statement of financial condition	8,787,606	1,906,883	10,694,489	12,193,430	1,447,610	13,641,040
Less: amount not offset in the Partnership's statement of financial condition						
Collateral ⁽¹⁾	8,784,768	1,852,744	10,637,512	12,172,780	1,447,562	13,620,342
Net amount	\$ 2,838	\$ 54,139	\$ 56,977	\$ 20,650	\$ 48	\$ 20,698

⁽¹⁾ Represents amounts which are not permitted to be offset on the Partnership's statement of financial condition in accordance with ASC 210-20 but which provide the Partnership with the right of offset in the event of default.

As of December 31, 2020, the Partnership had securities borrowed transactions of \$316.3 million with an affiliate. As of December 31, 2020, the Partnership had securities loaned transactions of \$77.7 million with an affiliate. As of December 31, 2020, the Partnership had repurchase agreements of \$41.0 million with affiliates. As of December 31, 2020, the Partnership had resale agreements of \$235.0 million with affiliates.

Amounts related to agreements not included in offsetting disclosure						<u>\$ 7,948,089</u>

In connection with securities financing transactions, the Partnership accepts collateral (U.S. government and agency obligations, corporate obligations, as well as equity securities) that it is permitted by contract or custom to sell or repledge. Such collateral consisted primarily of securities received from customers and other broker-dealers in connection with both Reverse Repurchase agreements and securities borrowed transactions. As of December 31, 2020, the gross and net fair value of such collateral received from counterparties was \$21.8 billion and \$14.5 billion, respectively. As of December 31, 2020, the gross and net fair value of such collateral loaned to counterparties was \$24.2 billion and \$16.2 billion, respectively. Additionally, a portion of collateral received is used by the Partnership to cover short sales, to obtain financing, and to satisfy deposit requirements at clearing organizations. At December 31, 2020, collateral with fair value of \$0.9 billion had been delivered against securities sold short or repledged by the Partnership.

5. Fixed Assets, net

Fixed assets, net consisted of the following (in thousands):

	December 31, 2020
Leasehold improvements and other fixed assets	\$ 10,422
Computer and communication equipment	4,904
Software, including software development costs	3,092
	18,418
Less: accumulated depreciation and amortization	14,731
Fixed assets, net	\$ 3,687

The carrying value of the capitalized software development costs amounted to \$1.8 million as of December 31, 2020.

6. Commitments and Contingencies

Legal Matters – In the ordinary course of business, various legal actions are brought and may be pending against the Partnership. The Partnership is also involved, from time to time, in other reviews, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Partnership’s business. Any such actions may result in judgments, settlements, fines, penalties, injunctions or other relief.

Employment and Competitor-Related Litigation – From time to time, the Partnership and its affiliates are involved in litigation, claims and arbitrations in the U.S. and internationally, relating to various employment matters, including with respect to termination of employment, hiring of employees currently or previously employed by competitors, terms and conditions of employment and other matters. In light of the competitive nature of the brokerage industry, litigation, claims, and arbitration between competitors regarding employee hiring are not uncommon.

The Partnership is unable to estimate a possible loss or range of loss in connection with specific matters beyond its current accrual and any other amounts disclosed. Management believes that, based on currently available information, the final outcome of these current pending matters will not have a material adverse effect on the Partnership’s statement of financial condition.

Financing – The Partnership had a commitment to provide a subordinated revolving line of credit of up to \$5.0 million to an affiliate. As of December 31, 2020, this revolving credit line was terminated and repaid in full.

At December 31, 2020, in connection with its financing activities, the Partnership had commitments to enter into or extend resale agreements. At December 31, 2020, there were \$4.4 billion in resale commitments. At December 31, 2020 there were \$1.2 billion in repurchase commitments.

7. Related Party Transactions

The Partnership’s Receivables from and Payables to related parties represent uncollateralized advances and amounts for support services provided.

The Partnership provided investment banking services to affiliates for which the uncollected balances are included in Receivables from related parties in the Partnership’s statement of financial condition.

The Partnership provided services to affiliates for the sale of Real Estate Investment Trusts and Delaware Statutory Trusts for which the uncollected balances are included in Receivables from related parties in the Partnership’s statement of financial condition.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

7. Related Party Transactions (continued)

The Partnership provides clearing and settlement services for a fee, under contractual agreements, to affiliates for which the uncollected balances are included in Receivables from related parties in the Partnership's statement of financial condition.

The Partnership has a commitment to provide a subordinated revolving line of credit to an affiliate and also has entered into guarantees on behalf of BGCP. See Note 6 – Commitments, Contingencies, and Guarantees for further detail related to these transactions.

Cantor and other affiliates provide the Partnership with administrative services and other support for which they charge the Partnership based on the cost of providing such services. Such support includes allocations for utilization of fixed assets, accounting, treasury, operations, human resources, legal and technology services. Under an Amended and Restated Joint Services Agreement between the Partnership and BGCP, BGCP provides network, data center, server administration support, and other technology services to the Partnership. BGCP charges the Partnership for these services commensurate with the cost of providing these services. Unpaid balances are included in Payables to related parties in the Partnership's statement of financial condition.

An affiliate of the Partnership enters into various agreements with certain of its employees whereby these employees receive forgivable loans. Unpaid balances are included in Payables to related parties in the Partnership's statement of financial condition.

The Partnership has subordinate borrowings with an affiliate. See Note 12 – Subordinated Borrowings for further detail related to these transactions.

8. Grant Units

CFLP provides grant units to certain employees of the Partnership that entitle the employees to participate in quarterly distributions of Cantor's income and to receive post-termination payments equal to the notional value of the grant generally in four equal yearly installments after the employee's termination provided that the employee has not engaged in any competitive activity with the Partnership or its affiliates prior to the date each payment is due. Typically, the grant units vest during the period of requisite service up to four years. Under U.S. GAAP guidance the grant units are re-measured at the end of every reporting period, and accordingly, any changes in the fair value of such post-termination payments are allocated to the Partnership as of December 31, 2020.

9. Regulatory Requirements

As a registered broker-dealer, the Partnership is subject to the SEC's Uniform Net Capital Rule ("Rule 15c3-1"). The Partnership has elected to compute its net capital using the alternative method, which requires the Partnership to maintain minimum net capital equal to the greater of \$1.5 million, or 2% of aggregate debit balances included in SEC Customer Protection Rule ("Rule 15c3-3") customer reserve computation, plus excess margin collected on resale agreements, as defined. As a registered FCM, the Partnership is subject to Regulation 1.17 of the CFTC, which requires the Partnership to maintain minimum adjusted net capital equal to the greater of 8% of customer and non-customer risk maintenance margin requirement, or \$1.0 million. At December 31, 2020, the Partnership had net capital, as defined, of \$514.9 million, which was \$512.3 million in excess of its required net capital.

The Partnership is required to perform a computation of the customer reserve requirements pursuant to Rule 15c3-3. As of December 31, 2020, the Partnership had no segregated qualified securities in a special reserve account in addition to \$39.2 million in cash for the exclusive benefit of customers, which is included in Cash and securities segregated under federal and other regulations in the Partnership's statement of financial condition.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

9. Regulatory Requirements (continued)

The Partnership is also required to perform a computation of reserve requirements for Proprietary Accounts of Broker-Dealers (“PAB”) pursuant to Rule 15c3-3. As of December 31, 2020, the Partnership segregated qualified securities with a value of \$11.0 million into a special reserve account for the exclusive benefit of PAB customers.

As an FCM, the Partnership is required to perform computations of the requirements of Section 4d(2) and Regulation 30.7 under the Commodity Exchange Act. As of December 31, 2020, the Partnership had assets segregated, secured and held in separate accounts totaling \$5.0 million, all of which was cash and exceeded requirements by \$5.0 million.

10. Financial Instruments and Off-Balance Sheet Risk

Guarantees – The Partnership is a member of various securities clearinghouses and exchanges. Under the standard membership agreement, members are required to guarantee the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearinghouse or exchange, all other members would be required to meet the shortfall. The Partnership’s liability under these arrangements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential for the Partnership to be required to make payments under these arrangements is remote. Accordingly, no liability was required to be recorded in the Partnership’s statement of financial condition.

In addition, the Partnership has entered into non-financial guarantees on behalf of CFS, a subsidiary of Cantor. The Partnership’s liability under these arrangements is not quantifiable. However, the potential for the Partnership to be required to make payments under these arrangements is remote. Accordingly, no liability was required to be recorded in the Partnership’s statement of financial condition.

Risks and Uncertainties – The Partnership generates revenue by providing securities trading and brokerage services to institutional customers and by executing, and in some cases, clearing transactions for institutional counterparties. Revenue for these services is transaction based. As a result, the Partnership’s revenue could vary based on the transaction volume of the global financial markets. Additionally, the Partnership’s financing is sensitive to interest rate fluctuations and could have an impact on the Partnership’s overall profitability.

Credit Risk – Credit risk arises from potential non-performance by counterparties. The Partnership has established policies and procedures to manage the exposure to credit risk. The Partnership maintains a thorough credit approval process to limit exposure to counterparty risk and employ stringent monitoring to control the counterparty risk for the matched principal businesses. The Partnership’s account opening and counterparty approval process includes verification of key customer identification, anti-money laundering verification checks and a credit review of financial and operating data. The credit review process includes establishing an internal rating and any other information deemed necessary to make an informed credit decision, which may include financials, correspondence, due diligence calls and a visit to the entity’s premises, as necessary.

Financial Instruments with Off-Balance-Sheet Risk – The Partnership enters into TBAs to facilitate customer transactions and provide an economic hedge for the Partnership’s trading inventory. The Partnership also enters into swaps and futures contract to provide an economic hedge for the Partnership’s trading inventory. The Partnership also enters into option contracts to facilitate customer transactions.

Such transactions may expose the Partnership to significant off-balance sheet risk in the event the collateral is not sufficient to fully cover losses, which customers may incur. In the event the customer fails to satisfy its obligations, the Partnership may be required to purchase or sell the collateral at prevailing market prices in order to fulfill the customer’s obligations. The Partnership’s customer financing and securities settlement activities may require the Partnership to pledge customer securities as collateral in support of various secured financing sources, such as securities loaned.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

10. Financial Instruments and Off-Balance Sheet Risk (continued)

Trading Activities – The Partnership’s primary activities include securities sales and trading services to institutional clients and other broker-dealers. To facilitate customer transactions, the Partnership will take principal positions in financial instruments, such as government, agency mortgage backed securities, corporate obligations, equities and options facilitation.

Market Risk – In the normal course of business, the Partnership enters into transactions to purchase inventory securities and sell securities not yet purchased, which are recorded as assets and liabilities in the Partnership’s statement of financial condition. Market risk is the potential loss the Partnership may incur as a result of changes in the market or fair value of a particular financial instrument. The Partnership’s exposure to market risk is determined by a number of factors, including size, duration, composition and diversification of positions held, the absolute and relative level of interest rates and foreign currency exchange rates, as well as market volatility and liquidity. The Partnership manages market risk by setting and monitoring adherence to risk limits, including hedging, aging, notional and concentration limits.

Operational Risk – In providing a comprehensive array of products and services, the Partnership may be exposed to operational risk. Operational risk may result from, but is not limited to, errors related to transaction processing, breaches of internal control systems and compliance requirements, fraud by employees or persons outside the Partnership or business interruption due to systems failures or other events.

Operational risk may also include breaches of the Partnership’s technology and information systems resulting from unauthorized access to confidential information or from internal or external threats, such as cyber attacks. Operational risk also includes potential legal or regulatory actions that could arise as a result of noncompliance with applicable laws and/or regulatory requirements. In the case of an operational event, the Partnership could suffer a financial loss as well as reputational damage.

Coronavirus Disease 2019 (COVID-19) Pandemic – Management has evaluated the impact of the COVID-19 pandemic on the industry and concluded that, while it is reasonably possible that the virus could have an effect on the Partnership’s financial condition and results of its operations, the specific impact is not readily determinable as of the date of this statement of financial condition. The statement of financial condition does not include any adjustments that might result from the outcome of this uncertainty.

11. Collateralized Borrowings

The Partnership has a \$150.0 million committed, secured bank facility that permits the Partnership to finance a broad array of U.S. fixed income and equity securities. The facility is structured as a 364 day senior secured revolving credit facility involving two banks. The borrowings are guaranteed by CFLP. The facility is used on a periodic basis to finance inventory. The facility is set to mature on April 29, 2021. There were no borrowings outstanding under the facility at December 31, 2020. The interest rate on this facility is one month LIBOR plus 125 basis points.

12. Subordinated Borrowings

During June 2011, the Partnership entered into two subordinated borrowing agreements with CFLP and CFS in the amounts of \$1.3 million and \$128.7 million, respectively. The rate of interest on both borrowings is three month LIBOR plus 600 basis points, maturing June 15, 2022.

During December 2013, the Partnership entered into an additional subordinated borrowing agreement with CFLP in the amount of \$75.0 million. The rate of interest on the borrowing is three month LIBOR plus 600 basis points, maturing December 31, 2022.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

12. Subordinated Borrowings (continued)

The unpaid balances are included in Payables to related parties in the Partnership's statement of financial condition. These borrowings are subordinated to the claims of general creditors, approved by FINRA and other regulators, and are included in the Partnership's calculation of net capital and the capital requirements under FINRA Rule 4120.

13. Income Taxes

As of December 31, 2020, the Partnership had net deferred tax assets of \$9,223, which consists primarily of book-tax differences related to grant units and accrued compensation.

The Partnership analyzed its tax positions with respect to applicable income tax issues for open tax years (in each respective jurisdiction) and determined that there were no material tax liabilities as of December 31, 2020. As of December 31, 2020, the Partnership did not accrue any interest or penalties. The Partnership is presently under UBT examination for the 2006 through 2010 years. The Partnership is presently not under examination by the United States federal authorities and is no longer subject to examination by US federal and state and non-UBT local authorities for the years prior to 2017 and 2015, respectively.

14. Revenue from Contracts with Customers

See Note 1 – General and Summary of Significant Accounting Policies for detailed information on the recognition of the Partnership's revenue from contracts with customers.

Contract Balances – The timing of the Partnership's revenue recognition may differ from the timing of payment by its customers. The Partnership records a receivable when revenue is recognized prior to payment and the Partnership has an unconditional right to payment. Alternatively, when payment precedes the provision of the related services, the Partnership records deferred revenue until the performance obligations are satisfied.

The Partnership had receivables related to revenue from contracts with customers of \$5.4 million at December 31, 2020.

The Partnership's deferred revenue primarily relates to customers paying advance or billed in advance where the performance obligation has not yet been satisfied. There was \$0.1 million of deferred revenue at December 31, 2020.

Contract Costs – The Partnership capitalizes costs to fulfill contracts associated with different lines of its business where the revenue is recognized at a point in time and the costs are determined to be recoverable. Capitalized costs to fulfill a contract are recognized at the point in time that the related revenue is recognized. At December 31, 2020, there were no capitalized costs recorded to fulfill a contract.

15. Leases

The Partnership, acting as a lessee, has operating leases primarily relating to office space and office equipment. The leases have remaining lease terms of 0.4 years to 7.0 years, some of which include options to extend the leases in 1 to 10 year increments for up to 20 years. Renewal periods are included in the lease term only when renewal is reasonably certain, which is a high threshold and requires management to apply judgment to determine the appropriate lease term. Certain leases also include periods covered by an option to terminate the lease if the Partnership is reasonably certain not to exercise the termination option. All leases were classified as operating leases as of December 31, 2020.

Pursuant to the accounting policy election, leases with an initial term of twelve months or less are not recognized on the balance sheet.

Cantor Fitzgerald & Co.
Notes to Statement of Financial Condition (continued)
December 31, 2020
(In Thousands)

15. Leases (continued)

ASC 842, *Leases* requires the Partnership to make certain assumptions and judgements in applying the guidance, including determining whether an arrangement includes a lease, determining the term of a lease when the contract has renewal or cancellation provisions, and determining the discount rate.

The Partnership determines whether an arrangement is or includes a lease at contract inception by evaluating whether the contract conveys the right to the control the use of an identified asset for a period of time in exchange for consideration. If the Partnership has the right to obtain substantially all of the economic benefits from, and can direct the use of, the identified asset for a period of time, the Partnership accounts for the identified asset as a lease. The Partnership has elected the practical expedient to not separate lease and non-lease components for all leases other than real estate leases. The primary non-lease component that is combined with a lease component is operating expenses such as utilities, maintenance or management fees.

As the rate implicit in the lease is not usually available, the Partnership used an incremental borrowing rate (“IBR”) based on the information available at the adoption date of the new leases standard in determining the present value of lease payments for existing leases. The Partnership elected to use a portfolio approach to IBR, applying corporate bond rates to the leases. The Partnership calculated the appropriate rates with reference to the lease term and lease currency. The Partnership will use information available at the lease commencement date to determine the discount rate for any new leases.

The Partnership subleases certain real estate to third parties. The value of these commitments is not material to the Partnership’s statement of financial condition.

After evaluating the Partnership’s leases, the Partnership determined that the carrying value of a certain ROU asset was no longer recoverable and was in fact impaired. Fair value was based on expected future cash flows under ASC 842.

As of December 31, 2020 the Partnership does not have any leases that have not yet commenced but that create significant rights and obligations.

Supplemental information related to the Partnership’s operating leases is as follows (in thousands):

	<u>Classification in Statement of Financial Condition</u>	<u>As of December 31, 2020</u>
<u>Assets</u>		
Operating lease right-of-use-assets	Other assets	\$ 14,380
<u>Liabilities</u>		
Operating lease liabilities	Accounts payable and accrued liabilities	\$ 20,111
As of December 31, 2020		
Weighted-average remaining lease term		
Operating leases (years)		5.5
Weighted-average discount rate		
Operating leases		6.0%

15. Leases (continued)

The following table shows the Partnership's maturity analysis of its operating lease liabilities (in thousands):

Years Ending December 31,	Operating Leases
2021	\$ 5,148
2022	4,433
2023	3,362
2024	3,178
2025	3,090
Thereafter	4,587
Total lease payments	23,798
Interest	(3,687)
Present value of lease liabilities	<u>\$ 20,111</u>

16. Subsequent Events

On February 9, 2021, the Partnership made a distribution of \$100.0 million to CFLP.

The Partnership has evaluated subsequent events through the date the statement of financial condition was issued. There have been no additional material subsequent events that would require recognition in this statement of financial condition or disclosure in the notes to the statement of financial condition.
